# Calendar Page

The screenshot displays a web application interface with a calendar and user profile section.

**Top Navigation:** Home, photos, videos, friends, Personal info.

**Your calendar:**

- Location filters: France, Bretagne, Bourg-Blanc.
- Calendar view: December 2022.
- Days of the week: MON, TUE, WED, THU, FRI, SAT, SUN.
- Event dates: 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25.

**Event Details Modal (webog):**

- Event title: webog.
- Event location: REGION - CITY - 12:00 5 Guests.
- Event description: Description Event.
- Event actions: Join Event, (if joined) Leave.
- Event guests: 5 guests.

**Right Sidebar:**

- Buttons: Create page, Create group, Post to blog, Verify account.
- About section: City: Bourg-Blanc, Birthday: 1 Sep 1983, Gender: Gay, coucou ça va !.
- Personal info section: Appearance: Height 4' 7" - 140 cm, Star sign: Virgo.

Events are displayed in the calendar.

**Auto Filtered:** same as member's search page ([https://www.chameleonsoftwareonline.com/demo/search\\_results](https://www.chameleonsoftwareonline.com/demo/search_results)).

**Only events on an area** (country > region > city > radius ) are displayed. This area is the same param as main user configuration to search members.  
Also : Search fieds (tags)

### **About Event detail box :**

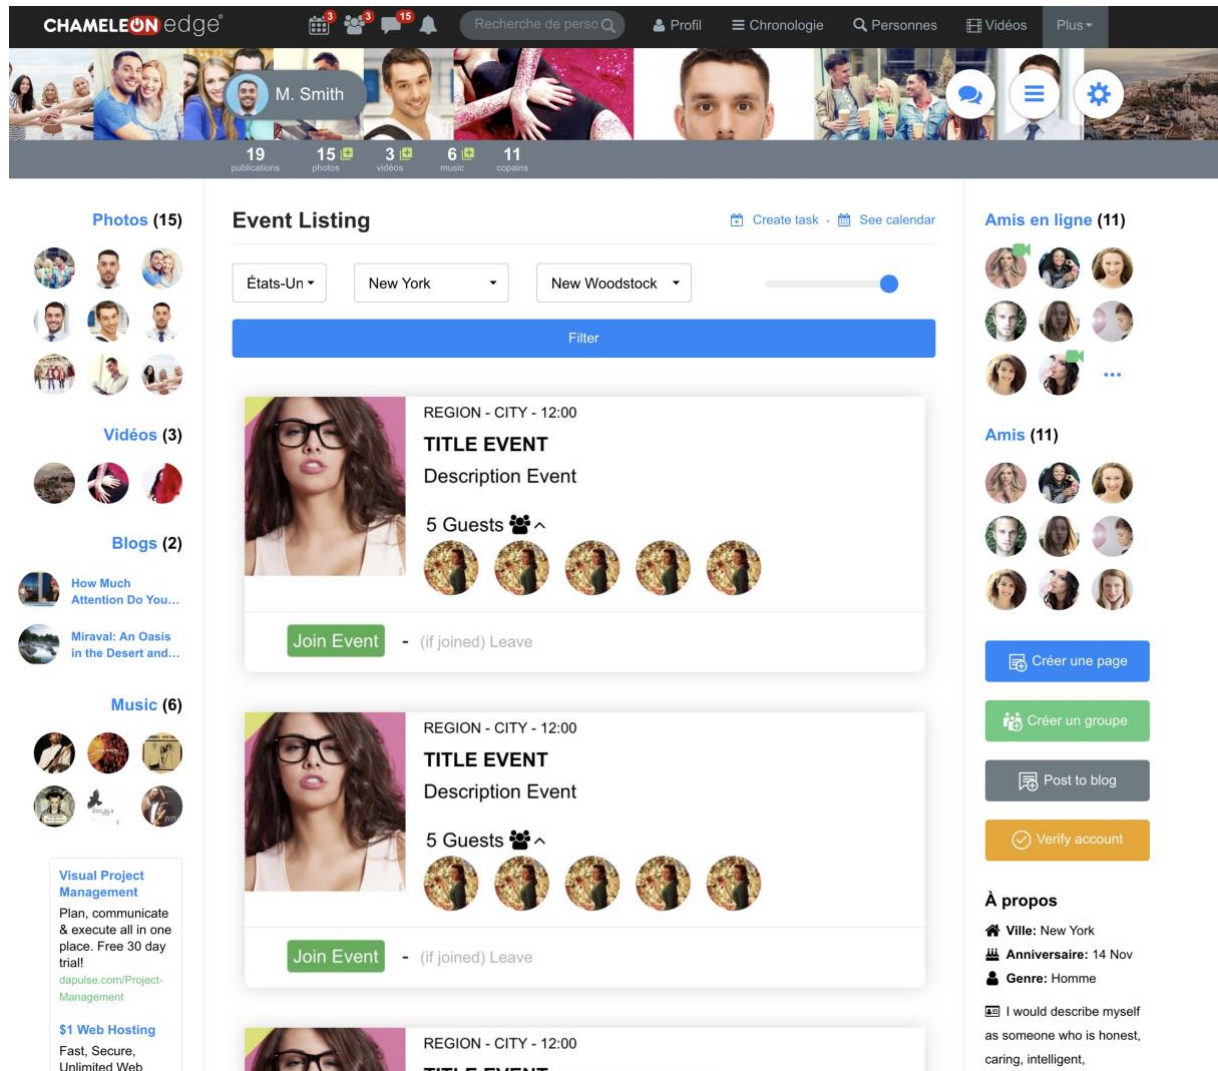

- Member who organise this event (avatar, username)
- Location – Hour – Number of guests (+ dropdown toggle with avatar of guests).
- Event's Title (Link to event detail)
- Event's Description
- Button : JOIN THIS EVENT or LEAVE (if joined)

*I can manage style (css) and display html.  
Do not worry about the style.*

# Listing Page

Same blocks as calendar.

If uploaded picture to event : showing picture's event. If not, showing admin event avatar.

(missing search fields (tags) on this screen capture)

## Notifications :

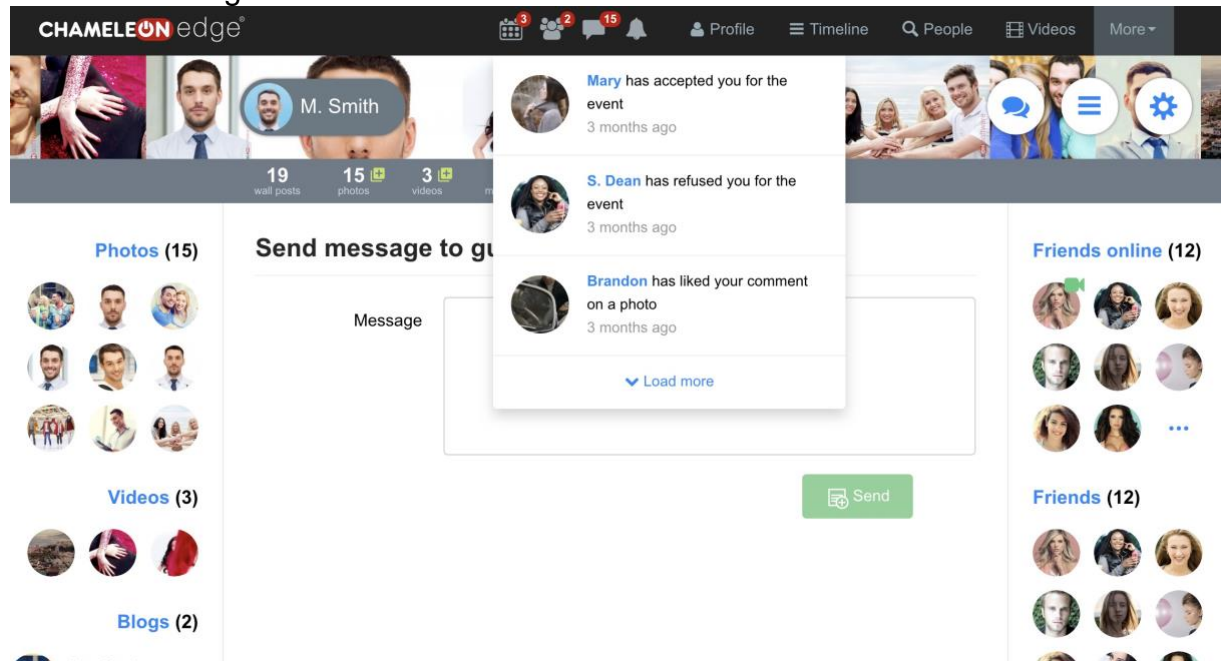

If param “Auto accept guest” = no

“someone (with profile link) want to join your event”  
> Accept > Decline

If guest accepted / Refused :

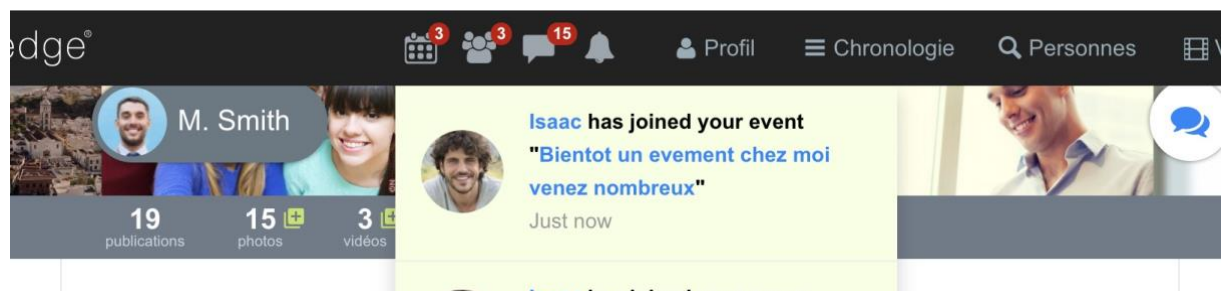

Notification for guest

If guest auto accepted

For event's admin :

Notif SOMEONE has joined your event "event name"

For guest :

You have joined an event "event name"

# Automated private message

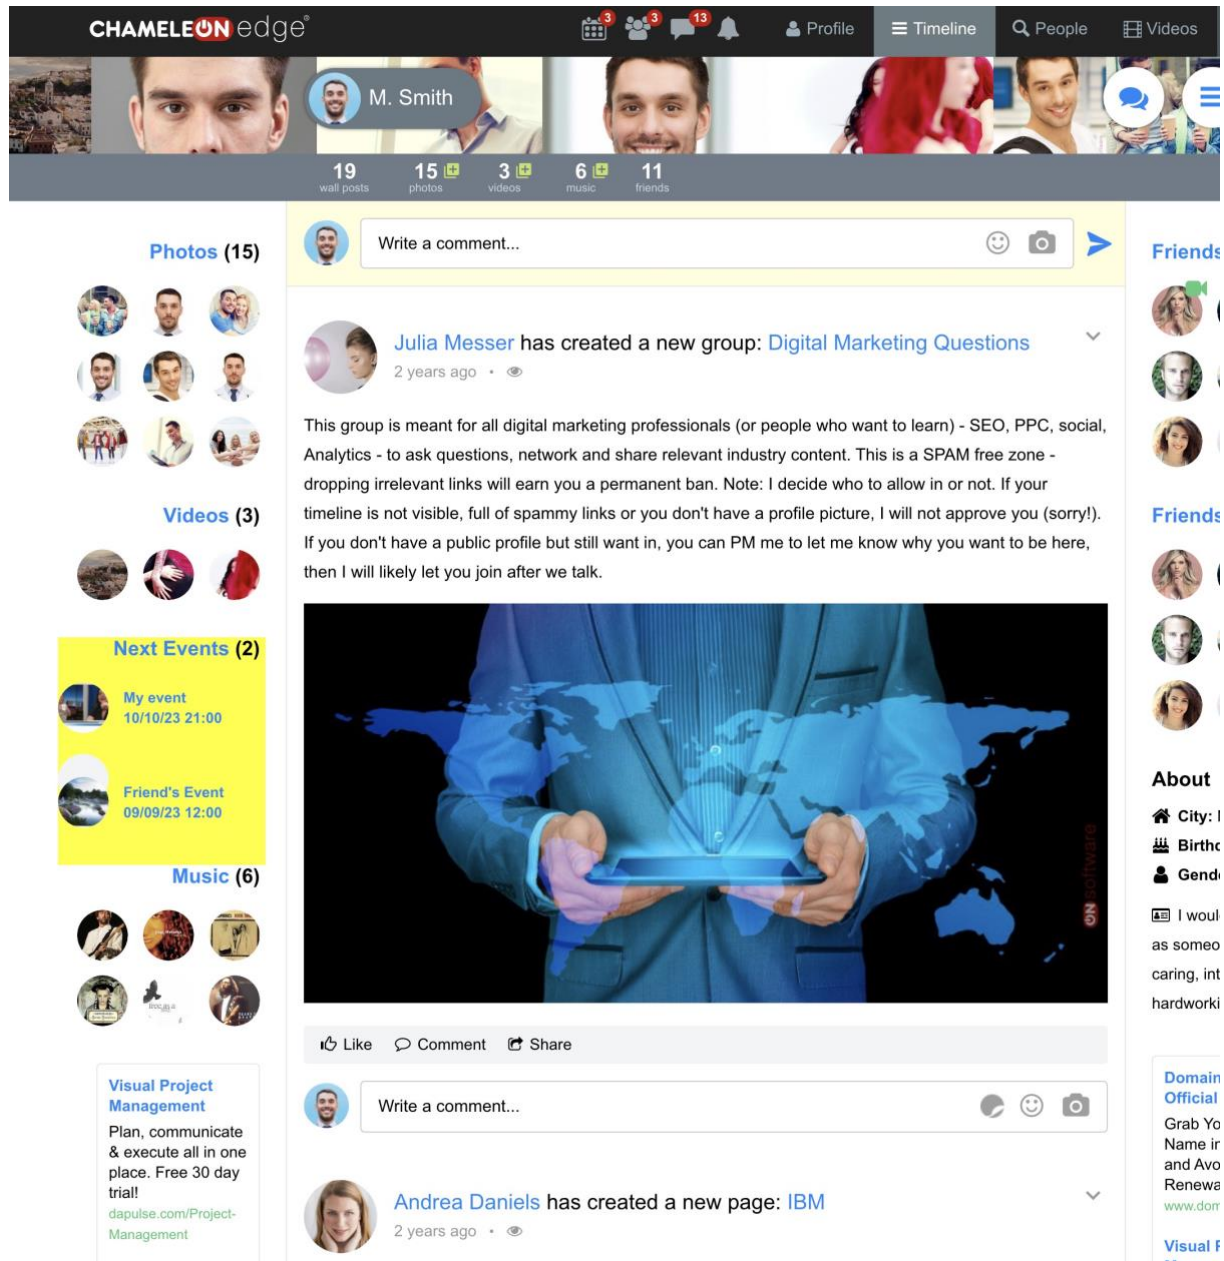

## Guidelines .

This is this param (when user create an event : )

The screenshot shows a 'Create New Event' interface. At the top, a navigation bar displays statistics: 19 publications, 15 photos, 3 vidéos, 6 music, and 11 copains. The left sidebar lists categories: 's (15)', 'os (3)', 'gs (2)', 'o You...', 'Oasis rt and...', and 'sic (6)'. The main form area is titled 'Create New Event' and contains a title input field with icons for bold (H), italic (B), link, image, and video. Below the title is a large text area labeled 'Write something'. Underneath is an 'Add Tags' input field. A yellow highlighted section titled 'Guidelines\*' contains the text: '\*Guidelines will be sent to guest by PM once they 're (auto)accepted'. At the bottom, there is a 'Location \*' dropdown menu currently set to 'États-Unis'.

Guideline param is sent by private message when a user is accepted or auto accepted to an event.

# Sidebar

On sidebar (left or right) showing :

**For my own profile :** my next event's as a guest / or admin

**For user's profiles :** Events they participate as admin or guest.
