- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- Familiarity with code versioning tools such as Git, SVN, and Mercurial

Education

Satbayev University

Master's degree in Computer Science   Date period

Skills

Html · Javascript · Css · TypeScript · ECMAScript · Angular · AngularJs · Vue · React · Node.Js · Express.Js · Mongodb · Mysql · Next.Js

Experience

Work Experience
Full-Stack Intern • Tortoise Creative Inc
December 2021 - April 2022

At the company, my daily work was to create frontend using ReactJs, backend using Node.js+ Express.JS + Mongodb, and deploy them in AWS. My primary project for the company was Lens, which was an assessment that I setup from scratch.

Software Intern • TWF Flours
June 2021 - July 2021

During the 1 month period, I gained experience working on the frontend of a B2B website, integrating the API of a Hyperlocal delivery service, and working on the SEO of the website using Schemas.
